LOT NUMBER EXPLANATION

All products manufactured by Ballas Egg Products Corp. are clearly identified with a four-digit “lot number” signifying the date of manufacture. A lot number appears on every label in the form “AAA-B”. In the lot number, “AAA” represents the Julian calendar day of the year and “B” represents the last digit of the year number.

Example: Lot #142-8 indicates a product manufactured on the 142nd day of the year 2008. A typical product label (blank) is shown below. The lot number field is located in the lower-left corner of the label.
